

Youth Work Week

2019 #YWW19

The theme of this year's week long (4th November - 10th November) campaign is

Youth Work in Action

Last year we asked the world what youth work is, this year we want the sector to show us what it looks like in action!

We encourage young people, youth workers and those that commission, fund or lead youth work to engage with the theme to show us and the rest of world what youth work looks like in 2019. Feel free to work with young people and interpret the theme how you see fit and to produce whatever you or your young people would like to!

If you're stuck for ideas we have a suggested idea that you can use below, also this year we are theming the days of Youth Work Week to match the shared vision of the Youth Charter.

How to get involved

Our 'ask' is for those working with young people to flip roles. We want to see videos of young people interviewing their youth workers, videos of young people chairing meetings, videos of young people leading group activities / discussions etc.

Don't forget to use the hashtag #YWW19 and tag us (@NatYouthAgency) during the week so we can help to share your amazing work!

Daily Themes

Mon 5th	Skilled and equipped to learn and earn
Tue 6th	Safe and Confident in their future
Wed 7th	Experiencing Positive Health and Wellbeing
Thur 8th	Active members of their communities and society
Fri 9th	Treated fairly and equally
